

diastolic blood pressure  
ovarian serous carcinoma  
osteoarthritis, knee  
thyroid stimulating hormone measurement  
Tourette syndrome  
ischemic stroke  
cutaneous melanoma  
ovarian carcinoma  
endometriosis  
intracellular pressure measurement  
central corneal thickness  
birth weight  
melanoma  
hypertension  
Self-injurious behavior  
Alpecia  
testosterone measurement  
high density lipoprotein cholesterol measurement  
aspartate aminotransferase measurement  
low density lipoprotein cholesterol measurement  
apolipoprotein B measurement  
hemoglobin measurement  
C-reactive protein measurement  
skin pigmentation  
protein measurement  
interleukin, 18 measurement  
urate measurement  
serum alanine aminotransferase measurement  
serum gamma glutamyl transferase measurement  
interferon, gamma measurement  
venous thrombocytosis  
Abnormality of chromosome segregation  
myocardial infarction  
coronary artery disease  
multiple myeloma  
interleukin, 12 measurement  
estradiol measurement  
calcium measurement  
vitamin D measurement  
ocular sarcoidosis  
response to antineoplastic agent  
influenza A, H1N1  
velopharyngeal dysfunction  
fatty acid measurement  
Cleft palate  
prostate carcinoma  
breast carcinoma  
osteoarthritis, hip  
creatinine kinase measurement  
Corneal astigmatism  
corneal topography  
age at menopause  
Testicular Germ Cell Tumor  
squamous cell carcinoma  
fibroblast growth factor 23 measurement  
eosinophilic esophagitis  
Astigmatism  
congenital heart disease  
systemic sclerosis  
eye color  
psoriasis  
squamous cell lung carcinoma  
thyroxine measurement  
alcohol drinking  
Tuberculosis  
respiratory system disease  
Sarcoidosis  
IgA glomerulonephritis  
ulcerative colitis  
paronychia vulgaris  
non-small cell lung carcinoma  
bilirubin measurement  
cervical intraepithelial neoplasia  
chronic lymphocytic leukemia  
Oral ulcer  
Vitiligo  
Eczema  
asthma  
adult onset asthma  
basal cell carcinoma  
ankylosing spondylitis  
mucocutaneous lymph node syndrome  
Crohn's disease  
primary biliary cirrhosis  
biliary liver cirrhosis  
leukocyte count  
granulocyte count  
multiple sclerosis  
autoimmune thyroid disease  
celiac disease  
leprosy  
hypothyroidism  
rheumatoid arthritis  
fasting blood glucose measurement  
vascular endothelial growth factor measurement  
resting heart rate  
lean body mass  
waist hip ratio  
adiponectin measurement  
beta nerve growth factor measurement  
anxiety  
response to fenofibrate  
potassium measurement  
interleukin, 10 measurement  
brain aneurysm  
longevity  
parathyroid hormone measurement  
alopecia areata  
blood protein measurement  
hormone measurement  
interleukin, 17 measurement  
Graves disease  
gastroesophageal reflux disease  
Myopia  
pathological myopia  
age at menarche  
handiness  
anorexia nervosa  
pelvic organ prolapse  
polycystic ovary syndrome  
bipolar disorder  
diabetic retinopathy  
glucagon measurement  
mathematical ability  
sleep duration  
schizophrenia  
memory performance  
amyotrophic lateral sclerosis  
sodium measurement  
body mass index  
intelligence  
interleukin, 1 receptor antagonist measurement  
bipolar disorder  
household income  
periodontitis  
albuminuria  
Abnormality of refraction  
body weight  
hip circumference  
dental caries  
melion sickness  
physical activity measurement  
prostate specific antigen measurement  
post-traumatic stress disorder  
autism spectrum disorder  
HIV-1 infection  
aging  
nicotine dependence  
response to alcohol  
sudden cardiac arrest  
heart rate  
attention deficit hyperactivity disorder  
spontaneous preterm birth  
phospholipid measurement  
interleukin 6 measurement  
unipolar depression  
Hallux valgus  
adolescent idiopathic scoliosis  
obesity  
cocaine dependence  
malaria  
cardiac troponin T measurement  
proliferative diabetic retinopathy  
insulin measurement  
endometrial carcinoma  
waist circumference  
vital capacity  
hepatocyte growth factor measurement  
glomerular filtration rate  
blood urea nitrogen measurement  
alkaline phosphatase measurement  
homocysteine measurement  
stem Cell Factor measurement  
gout  
glucose measurement  
breast size  
glycine measurement  
androgenetic alopecia  
atrial fibrillation  
glaucoma  
frontal fibrosing alopecia  
electrocardiography  
renal cell carcinoma  
diabetic nephropathy  
leptin measurement  
Moyamoya disease  
body height  
bone density  
body fat distribution  
non-alcoholic fatty liver disease  
magnesium measurement  
Headache  
hippocampal atrophy  
Alzheimer's disease  
Takayasu arteritis  
von Willebrand factor measurement  
hair color  
transferrin saturation measurement  
Sunan

Adipose - Visceral (Omentum)  
Adipose - Subcutaneous  
Artery - Coronary  
Artery - Aorta  
Stomach  
Colon - Transverse  
Esophagus - Gastroesophageal Junction  
Esophagus - Muscularis  
Colon - Sigmoid  
Artery - Tibial  
Breast - Mammary Tissue  
Bladder  
Heart - Atrial Appendage  
Heart - Left Ventricle  
Muscle - Skeletal  
Liver  
Lung  
Small Intestine - Terminal Ileum  
Brain - Cortex  
Brain - Frontal Cortex (BA9)  
Brain - Anterior cingulate cortex (BA24)  
Brain - Caudate (basal ganglia)  
Brain - Nucleus accumbens (basal ganglia)  
Brain - Hypothalamus  
Brain - Amygdala  
Brain - Putamen (basal ganglia)  
Brain - Hippocampus  
Brain - Substantia nigra  
Whole Blood  
Spleen  
Cells - EBV-transformed lymphocytes  
Brain - Spinal cord (cervical c-1)  
Brain - Cerebellar Hemisphere  
Brain - Cerebellum  
Pharynx  
Skin - Not Sun Exposed (Suprapubic)  
Skin - Sun Exposed (Lower leg)  
Esophagus - Mucosa  
Minor Salivary Gland  
Vagina  
Cells - Cultured fibroblasts  
Kidney - Cortex  
Pancreas  
Adrenal Gland  
Kidney - Medulla  
Ovary  
Uterus  
Cervix - Endocervix  
Cervix - Ectocervix  
Nerve - Tibial  
Fallopian Tube  
Thyroid  
Prostate
